## What Was Discussed

How far along with the task, that each member was assigned.

How much more time each team member would need to complete their task

## Decisions Made

Each team member will aim to finish their task before the next meeting

Next meeting date

## User Stories

As a student, I want to add assignments to my calendar so that I receive push notifications when their due date is near.

Given that I am a student and I have around 15 assignments at a time, when I open my calendar, then I should see the top 5 priority assignments and which class they originate from.
