2 out of 3 members were able to complete their task

Team members discussed a solution for the uncompleted task

Decisions Made

Certain implementations for the software

Ideas for the next new tasks for team members

Next meeting date

User Stories

As a student, I want to add assignments to my calendar so that I receive push notifications when their due date is near.

Given that I am a student and I have around 15 assignments at a time, when I open my calendar, then I should see the top 5 priority assignments and which class they originate from.

As a scholar, I want to be able to structure my calendar in a way that best suits my academic needs and or my style on canvas, so that I can customize and optimize my scheduling abilities.

Action Items

1	Completion of beginning requirements		
2	Creation of next ideas to be implemented
